

# Working with Images

- 1. Go to **MEDIA** in the CMS
- 2. In Upload/Files & Photos click Create New

- 3. Give your image a title and click on **Browse/Choose File**
- 4. Browse your computer for the file that you want and click **Open**

CONTENT	IVINIS MIDIA	Cloud Dri	Name	∧ Size		Kind

nonzontai s	pace 5		borger style	Ok Cance	e	

15. You will see your picture loaded into the content box of your page. Update your page and visit your site to see the new picture!

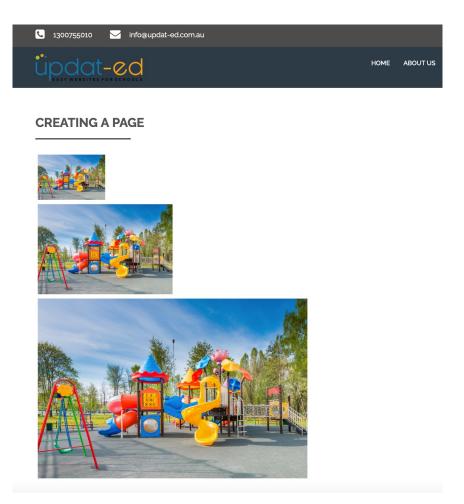

The below image shows the same graphic placed on the page using the pre-set sizes of small, medium and large.

## WRAPPING TEXT AROUND IMAGES

If you have a page of text that you would like to brighten with some images throughout, follow steps 1 – 8 of this guide.

1. Once you are on the page where you would like to add your image, put your cursor where you would like the image to appear. In this instance, we will put it in the top left corner. Then click on the **Insert/Edit Image** button

### ALIGNING MULTIPLE IMAGES ON A PAGE

You may find that you would like a row of images displayed on your site, as long as you keep the dimensions the same, they will look great.

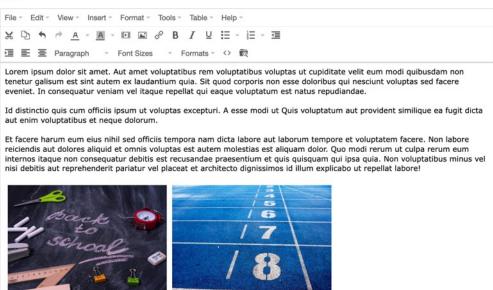

- 1. Load your images into the media folder following the steps outlined earlier in this guide.
- Pop your cursor where you would like the first image to land and click on the Insert/Edit image button and paste the URL into the source box. Choose your size in this case **Medium** and add your spacing.

- 3. Update your page.
- 4. Go back to MEDIA and copy the URL of the second picture you wish to load. Go to Website Content and edit the page you are working on. Pop your cursor to the RIGHT of the first image and then click on the Insert/Edit Image icon.
- 5. Paste the URL of your image in the source box, choose size medium, add your spacing and insert.

6. Repeat for as many images as you like.

#### WORKING WITH IMAGES
