

Adding an image to a page

The in-page media uploader allows you to add images to a page or article without using the media folder.

- Go to the page you want to load your image and place your cursor where you would like the image to appear.
- Click on "Insert/Edit Image" icon in the toolbar.

What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

ABOUT US V LEARNING V WELLBEING V COMMUNITY V CONTACT

Why do we use it?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

HOME

• If the picture is too big or too small, you can edit the size of the image to make it fit better on the page.

Aligning multiple images on a page

• If you would like to align your images on a page side by side on the page, place your cursor where you want the images to display

- Follow the steps outlined for selecting or uploading your first image as outlined previously in this guide.
- Choose the dimensions of your first image then click on Advanced to add the vertical and horizontal spacing.
