

Uploading a Video using FUSE

1 / 7

FUSE is an online teaching and learning facility provided by the Victorian Department of Education and Training found at <https://fuse.education.vic.gov.au/> Only Victorian DEET schools have access to FUSE

1. Login to FUSE using your TO number and password. Then click on My Desk.

2. Click on Add a Resource

Uploading a Video using FUSE

4. Give your video a Title and Description.

The top option: File to Upload – click on Upload and browse your computer for your video file.

The screenshot shows the 'Add a Resource' form. At the top, there are two tabs: 'ADD A FILE' (active) and 'ADD A LINK'. Below the tabs, the form has several fields:

- Title ***: A text input field containing 'Skateboarding Lessons'. A blue arrow points from the 'File to upload' button to this field.
- File to upload ***: A red 'UPLOAD' button with a yellow question mark icon.
- Display Image**: A red 'UPLOAD' button with a yellow question mark icon.
- Support File**: A red 'UPLOAD' button with a yellow question mark icon.
- Description ***: A rich text editor with a toolbar (B, I, list, link, unlink) and a text area containing 'This is a lesson for beginner riders.'

A large number '5' is positioned to the left of the form, indicating the step number.

5. Once uploaded, it will look like this:

This screenshot shows the same 'Add a Resource' form after the video file has been successfully uploaded. The 'File to upload' field now displays 'IMG_4592.MOV 15.7 MB' with a small 'x' icon to its right. The 'Display Image' and 'Support File' buttons remain red with yellow question mark icons. The 'Description' field remains the same.

Uploading a Video using FUSE

6. You can add a thumbnail image and a resource file if you wish (but these are optional).

Choose VIDEO from Resource Type.

7. Check the Privacy Confirmation box and click on Save to My Desk.

8. It may take some time to upload (depending on the size of your video).

Uploading a Video using FUSE

9. Once uploaded, click on the share button.

10. Select Embed Code

11. Copy the code and go to the CMS of your website.

Uploading a Video using FUSE

11. Go to the page you wish to embed your video and click on the code button

12. Paste the code into this box. If it is an empty page, you can delete all the code that is currently there. If the page has content, read through the code until you find where you want the video to display. It's often easiest to put it at the top or the bottom of all the code if you find it confusing to read the code. **Before you click on OK, please see next two steps.**

Source code ×

```
<link href="//fuse.education.vic.gov.au/Content/embed.css" rel="stylesheet" /><div class="fuse-player-frame-wrapper"><iframe src="//fuse.education.vic.gov.au/Embed/SKP2XS" frameborder="0" seamless="seamless" class="fuse-player-frame" webkitallowfullscreen mozallowfullscreen allowfullscreen style="width: 100%; height: 100%; border: 0;"></iframe><div class="fuse-player-frame-wrapper-ratio"></div></div>
```

Uploading a Video using FUSE

- FUSE videos tend to load with a percentage in the frame code, which leaves you with a thin video when embedded in your site like this one:

- You can fix this by changing the code. Where it says width 100% and height 100%. Change these to width 854 (no percent) and height 480 (no percent) These are standard video dimensions.
