Uploading a Video using YouTube

- Copy the code to the right of your video and go to the CMS of your website.

- Go to the page you wish to embed your video and click on the code button

- Paste the code into this box. If it is an empty page, you can delete all the code that is currently there. If the page has content, read through the code until you find where you want the video to display. It's often easiest to put it at the top or the bottom of all the code if you find it confusing to read the code.
